SUMMARY

Information Technology graduate specializing in website development, graphic design, automation, and general admin support. I bring over five years of remote work experience helping businesses grow their online presence and reduce manual work. My skills range from coding web applications and automations to creating visual graphics and social media content. I pride myself on delivering clear visual designs and practical general support that make day to day work easier for my clients.

PROJECTS

HOMELAND SOLUTIONS (2026)

Designed a lead generation website for a mortgage company using WordPress and Elementor. The layout was built to simplify lending options and encourage first home buyers to book a consultation.

LEVELS IT (2025–2026)

Developed a modern business website for an IT service provider. The project included SEO setup and clear navigation to help visitors understand the services and contact the team easily.

CALLAUGHAN PARTNERS (2026)

Redesigned the main website for an accounting firm using custom CSS and WordPress to give them a more polished and professional online presence.

IGNITE TRAINING (2026)

Built a responsive website with course booking features so visitors can easily explore training programs, understand the services, and submit enquiries.

DOVE PRESS WORKFLOW AND EMAIL AUTOMATIONS (2024–2025)

Created custom email campaigns and workflow automations using Mailchimp and Power Automate. These simple systems reduced manual administrative work and kept marketing communications running smoothly.

WORK EXPERIENCE

FREELANCE WEB DEVELOPER & DESIGNER (NOVEMBER 2025 – MAY 2026) **LEVELS IT AUSTRALIA (FULL-TIME REMOTE)**

- Designed, developed, and successfully launched 4+ live websites
